Forefront

Vietnam – The First Step

Vietnam has been an interesting and illuminating experience.

Neil and I have experienced an economy desperate for economic and social reform, with little hope for either in the foreseeable future, unless radical policies are introduced. Poverty screaming from every street is drowned by a sea of motorcycles, pedestrians and humanity simply trying to survive the day, contrasted with the stark reality and obvious presence of pockets of wealth and redevelopment.

Walking through the streets, your senses are bombarded with sights, sounds, smells and an incredibly diverse socio-economic representation of the people working in and on the streets - from the most basic of curb side restaurants preparing and serving meals literally on the pavement or ground, to a few doors along , and a retail outlet equal to any David Jones or Myer Centre in Australia. Mechanical repairers servicing and reconditioning motor scooters and all manner of vehicles flow onto the pavement and road with the accompanying film of grease and grime.

We were also privileged to meet people who are actively addressing the needs of the community at large and have instigated the beginnings of a long-term program to address the real issues and needs facing the people of Vietnam. One couple, Zoom and Minh-Ha Nguyen, operating in a voluntary capacity as part of a church group, are operating in a small two storey house providing training and pseudo employment for victims of polio, agent orange, etc. This amazing couple are also assisting the deaf to work towards becoming self sufficient. Providing an incredible range of Vietnamese handcrafts including full size hand sewn quilts to hand made bookmarks, they are also producing Toiletry bags for the Hilton Hotel chain. These are real people addressing the real needs of the Vietnamese people. E Banc Trade in conjunction with Mr Gary Waters of Integrity Care will be implementing a marketing strategy to

assist this and other such groups to increase the number of people being helped by arranging markets for their products internationally. We will also be establishing a program in Vietnam offering interpreting services to Western travellers and education/employment opportunities for Vietnamese children.

Overall the trip was a huge success. The opening in Hanoi attracted in excess of 450 guests, and E Banc Trade Vietnam is moving ahead in strength. We also met many government officials who were supportive of our program and are looking forward to a huge expansion of our membership growth. Meetings with officials in the Tay Ninh Province proved to us that the issues aren't just localised but inherent to the Nation as a whole

Discussions were also held with a business group desirous of obtaining the Master License for Cambodia.

In Ho Chi Minh we were present at a licensee meeting attending by over 75 licensees. The obvious belief and enthusiasm for our program was heart warming, as we were welcomed and subsequently thanked for making this possible.

Our program is being heralded as an integral part of the Economic and Social reform for the people of Vietnam. We found this to be quite awe inspiring and humbling. One could be excused for thinking that we as a nation have got our priorities all wrong. We are so lucky to live as we do here in Australia.

- If you normally require a cash deposit, do the same thing with E Banc Trade members.
- If you normally require the cash up front, again do the same thing with your E Banc Trade members.

- Make sure the agreed trade percentage is clearly understood by both parties before the transaction takes place.

- It makes for fair and equitable trading if members trade with each other as they would normally with any business.

Cash Fees

Just a reminder that your fees are due at the end of each month. Keeping organised and up to date ensures that your fees don't amass. Once your fees have accumulated to over \$20 they will be due at the end of the month.

Head Office Easter Break

During Easter, E Banc Trade Head Office will be closed from Friday April 9th reopening Tuesday April 13th.

We wish everyone a relaxing break.

E Flora

The E Foundation is set to launch a new concept "Eflora.com.au".

The E Foundation is currently working with florists to help put a stop to diminishing sales and increasing overheads within the industry. To help improve this situation the E Foundation is trialling a concept that will enable florists to trade amongst themselves using trade dollars, and reduce their current fees from up to 35% to less than 5%. The concept also allows for an ongoing professional marketing strategy as well as providing an avenue to become involved in the community, with regular donations to nominated charities, through the E Foundation.

A "soft" launch for Eflora.com.au will be held at the ABC FLOWER SHOW, being held at Brisbane's "Ekka" on April 2,3 and 4th, followed by an extensive follow-up program where florists will be personally contacted. Once established Eflora.com.au will not only benefit florists but also be a great benefit to the E Banc Trade members.

Selling Real Estate?

Why not use your trade \$\$ to help pay your commission.

We have quite a few real estate agents who are members of E Banc Trade and will take a % of their commission in trade dollars. Anyone who sells a house knows that this is one of those bills no one likes paying. So why not look up your directory first and give one of our members a go before you pick up the phone. You do not have to accept part trade in the sale of your property, but you can still take advantage of a trade percentage in the commission fee.

Of course if you are interested in selling with a component of trade contact Outlook Realty on 5437 7076.

HOT OFF THE PRESS

Philanthropic Spirit Award (community organisation) - Robert Geluk & Lorri Mason of ACTS

Guest feedback on the success of the event has been overwhelmingly positive, indicating a triumph for E Foundation and a special night for the community. For those who missed out, we hope and trust that you will join in the excitement next year.

Trademarks Australia

Trademark protection can be an inexpensive exercise or process. No matter how small or large your business is you need to protect your business assets, or risk losing your rights. At the very least, your business cannot afford not to be aware of trademarks and how trademarks affect your business. Trademark registration can be a valuable asset to your business. A registered trademark is a tradeable piece of property, adding value to your business.
