

Attention all Empire Trade Members!

Opportunity to spend your trade dollars by sponsoring a great organisation!

Empire Trade Exchange is excited to announce it has formed a partnership with the Brock Junior Development Racing Team. **The Brock Empire Trade Junior Development Team focuses on;**

- **Promoting safe driving.** By providing a conduit for positive driving messages, the Brock Junior Development Team influences the minds of prospective drivers and young practising drivers.
- **Driver Education.** The Brock Junior Development Team will visit schools and other institutions to promote the message of safe driving. Where possible, the Brock Junior Development Team will work with existing government bodies to re-enforce existing safe driving themes. This combined and unified approach will undoubtedly reduce the shocking youth road toll within Australia.
- **Identifying, mentoring and promoting talented young drivers within Australia.** Specifically focusing on those who may not have the funding to compete without personal backing. Phillip Brock, brother of the famous Peter Brock, will act as a mentor role for junior drivers enrolled in the program.

The Empire Trade Exchange sees this partnership as an excellent opportunity to increase the exposure of the Empire Trade brand – in combination with **supporting an exciting new development in motor sport** that has a strong community focus.

Empire Trade **encourages all members to get on board this outstanding opportunity** as it will undoubtedly bring new members to the Empire Trade Exchange – creating a larger, more diversified community, and **providing you with more places to spend your trade dollars.**

This partnership promises to be **highly rewarding for all Empire Trade members**, so make sure you do your part, and get on board – at least for base level sponsorship.

If you would like more information on the various levels of sponsorship that you can undertake, please contact Peter McFarland and Lewis Brock on 0449 218 812

Trading Bouquet

From Jenny and Greg Hanna in Queensland

A big thank you to Nick Gane and Peter from Gane's Home Improvements for the great job they are doing on our home renovation on the Sunshine Coast. We have recently had an addition to our home of a new granny flat bathroom, new laundry and the change to our garage into a quality rumpus room. Nick and Peter have proven themselves to be excellent builders and a pleasure to deal with. Our elderly parents are in the house as they renovate and they have shown both kindness and consideration to them at all times. I highly recommend them for any renovation large or small. Thanks guys.

Nowadays more and more people prefer to wash in cold water. It is more economical, reduces power consumption, therefore reducing carbon dioxide emissions, and reduces the chance of shrinkage or dye runs on clothes. However many laundry powders are not as effective in cold water as in warm or hot. So we have formulated Polar Cold Wash Laundry Powder specifically to be highly effective in cold water.

Application (one scoop = 40g)

Small top load - soft water: half a scoop | Small top load - hard water: one scoop

Large top load - soft water: one scoop | Large top load - hard water: one and a half scoops

Booster and Soak is the ideal way to remove stubborn stains. Efficient and effective in warm or hot water as a boost to the wash, soaker for stains and the ideal nappy sanitiser, cleaner and brightener. Safe on all washable fabrics including colours. Phosphate free and readily biodegradable, it is ideal for environmentally sensitive areas.

A premium quality commercial grade disinfectant that thoroughly cleans all washable surface. 1 litre of Dominant Disinfectant makes 80 litres of commercial grade disinfectant.

5. **Furniture Polish** - PRICE \$12

Dominant Furniture Polish contains a rich blend of waxes, with a spice wood fragrance to leave furniture with that special gleam. Unlike most aerosol furniture polishes, Dominant Furniture Polish contains no silicone and so is suitable for use on most French polished surfaces. It can be used on furniture, vinyl upholstery, chrome and stainless steel. The aerosol pack contains no dangerous chlorofluorocarbon propellant.

Application: Shake well before use. Simply spray a light coating onto the surface and polish off with a clean, soft cloth. To dust and polish in one step spray Dominant Furniture Polish onto a soft cloth and wipe over area. For antique furniture, test on an inconspicuous area before application.
