## New Search Engine for Members

Empire Trade now has a new search engine designed with members in mind. It is available to use when you login to the secure online section on the Empire Trade website. The search engine has all new features to assist you to easily locate the products / services you require. The new features include:

### Quickfind

This area contains a list of broad categories to help you begin your search. By clicking on a category, you will be presented with a list of sub-categories that correspond. For example, if you click on Food & Wine, you will then be presented with a list of sub-categories such as Bakeries, Delicatessens, Coffee Supplies etc. Quickfind eliminates the confusion of having to know another members' Trading Name or Regional Area and allows you to find what you need a lot faster.

### HandyLinks

Handylinks is a list of categories that are specifically tailored to each member depending on the type of business they operate. This tool is 'handy' to help you spend your trade dollars on business expenses. For example, a member who operates a hotel or motel would have 'HandyLinks' such as Air Conditioners & Contractors, Laundry Services, Catering Supplies, Manchester Suppliers etc. This search facility is currently in progress as categories are being linked. We appreciate your patience.

### FastSearch

In a hurry? Simply enter the type of product or service you require and the system will provide you with the relevant member's information. Please note that with FastSearch, less is more. For instance, if you are looking for promotional pens and stubbie holders, do not enter both of these words together. Entering them separately will ensure you get the best results.

### AdvancedSearch

If you are looking for something more specific rather than a broad search, AdvancedSearch is for you. Make sure you fill in all the fields correctly, remember that you only need to select either a regional area or a state. If you enter both, all of the members from that state will be displayed, which can make your search more difficult.

To use the new search engine go to [www.empireXchange.com](http://www.empireXchange.com) and login with your username and password.
