Overview

The Vanuatu government has recently approved the Rentapau Efate Resort development which is located only 20 to 30 minutes from Port Vila, the capital of Vanuatu. The developers have commenced the land subdivision which will include an international hotel, a world class day spa and health retreat and commercial and residential land sites with architect designed Melanesian style homes. Investors and owner occupiers now have a unique opportunity to purchase large oceanfront or golf fairway residential blocks. **Lot sizes range from 2,000 m2 to 2,700 m2, with flexible architectural covenants.** Rentapau Efate Resort will be fully maintained and managed, providing residents and guests with an unparalleled level of service and an estate to be proud of.

Ocean Views

The landscape is rich and striking and coral formations dotting the coastline provide a unique sense of privacy and natural drama. Each of the land sites has an excellent aspect, most with the potential for uninterrupted ocean views. These shores are also the perfect milieu for diving and fishing.

Actual site image of Lagoon | Map of Island

Air Travel

The Rentapau Efate Resort development is only 3.5 hours flight from Sydney, 2.5 hours flight from Brisbane and 35 minutes drive from Port Vila Airport.

Melanesian Villas

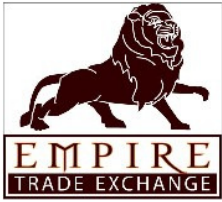

100% finance for the \$141,000 full price of these fully-furnished, self-contained, 110m2 Melanesian villas can be arranged for approved purchasers. The interest payments for the loan will be covered by the rental guarantee.

Strata Plan 16 has:

~~8 x available blocks for sale on 50% Trade-~~

5 x available blocks for sale on 50% Trade.

Prices range from: AUD\$225,000 to AUD\$350,000 per block. These prices would only represent deposits for oceanfront reserve land in Australia.

Strata Plan 16:

This information relates to Strata Plan 16 in The Mill Limited (TML) for the land and villas on offer within the 50 Ha. resort development in Vanuatu. There are 59 x lots in Strata Plan 16 and each has an average size of 2,000m² in the development on the shores of the Pacific Ocean. (See website). The furthest block is only 400m from the ocean, lagoon and the proposed golf clubhouse, day spa and casino /hotel.

After the Land Settlement - Construction of 110m² Melanesian villa.

Within 6 x months of settlement of the land, TML will complete the construction of the 2x bedroom (plus mezzanine-loft 3rd bedroom) Melanesian villa with 110m² of living space plus vegetable garden and orchard.

Furniture package.

On completion of the villa, a quality island style complete furniture package will be installed and is included in the price, to allow for holiday lettings or even to use for one's own holidays. The package comprises a lounge, 3 x beds, dining table and chairs, (indoor and outdoor), flat screen TV, fridge, BBQ, microwave, utensils, lamps, washer, dryer, etc. (full details to be supplied and scheduled in the contract). Therefore, the villa can generate income as rentable holiday accommodation or it could also be used by the owners for their holidays or a combination thereof.

A display Melanesian Villa is currently under construction in SP16 (block size 2,000m²) and is at the roofing stage. The villa is tucked into one corner of the block and is orientated so that the long axis of the roof is facing north. That roof area would accommodate a solar power system sufficient to supply all the power needed for a larger residence as well (see later). (See website and click on SP16).

Construction of a 350 - 450m² residence.

As the Melanesian Villa only has a 110m² footprint, leaving almost 2000m² of land, the purchasers may choose to also build a separate 300 to 450m² residence on the same site. There are a number of different house plans available for these large, main dwellings that can have extra bedrooms added on as required as some of the Melanesian designs have a main pavilion living area with satellite bedrooms radiating out from the main pavilion with all the laundry services built into the "staff" Melanesian villa. TML can facilitate the finance and arrange for the construction.

Purchasers who build their homes in Vanuatu would usually make provision for accommodation for their staff to take care of the laundry and ironing, cooking, cleaning and maintenance of the property as well as the vegetable garden and orchard and grounds generally. At 160 vatu (AUD\$2.00) per hour as the standard wage it is very economical to do so and it makes it even more attractive if you have the staff (Mr. and Mrs.) live on site in their separate low cost accommodation. The Melanesian villa would be ideal for this purpose if the purchaser also proceeded with the large main residence.

A common concept is to keep one of the satellite bedrooms of the main dwelling permanently locked as an owner's master bedroom, always to be available for the owners when they visit and never to be leased out whilst the remainder of the rooms can be let individually or as a group complete with full house-keeping and meals. This makes it very convenient for the owner to enjoy short breaks (2.5 to 3.5 hours flying time from east coast Australia) and to know that their dwelling is always ready for themselves, their guests or paying holiday tourists with no time or labour requirement of the owners.

Also, the purchaser has the option of engaging their own architect and doing their own thing within the architectural guidelines designed to maintain the Melanesian island ambience. Construction in Port Vila is of a high quality and the cost per metre is less than Australian building prices. A swimming pool and BBQ facilities will be in the communal park area as shown in strata plan 16.

In Summary

Purchasers can buy a block of land and have an income producing Melanesian villa built and also choose to construct a 300-450m² residence at a later date; or **return the block to the sales pool and cash convert their trade dollars.** The offer for the villa purchase is 100% interest free finance to approved purchasers for two years or, upon completion of the hotel or golf course, whichever occurs first.

Upon completion of construction of the Melanesian villa the 2 year rental guarantee would be sufficient to pay:

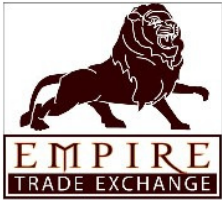

- (a) The mortgage interest payments on the Melanesian villa plus
- (b) The total outgoings, including strata levies, of approximately \$2,500 pa.

This is an ideal way to acquire prime coastal property at prices which would only represent a deposit for similar land in Australia and just a short walk to the water and the proposed golf clubhouse, day spa and casino /hotel.

Whether as a retirement plan, second home or investment opportunity with potential for capital growth and high yield, Rentapau Efate Resort is an exciting prospect for any discerning investor ready to embrace the sea-change of a lifetime.
